

I wish to voice my opposition to 02-278 in the strongest possible way . Since joining the In. Do Not Call list my home has become much more peaceful since I no longer have to deal with intrusive telemarketers . The difference this has made for me has been impressive . Please DO NOT allow the banking industry , or any other , to circumvent the protection provided by the Do Not Call list for any reason . Voters despise telemarketers , please don't give them the green light to once again engage in their invasive practices . They have already more than adequately demonstrated that they can't be trusted to abide by simple rules of responsible business etiquette , don't allow them to repeat their mistakes at the cost of peace in our homes again .

Thank you ,
John K. Haendiges
